

Future AP Psychology Students:

This is the outline for your summer reading and related work. You are expected to complete this packet before school starts next September. Because of the inability to issue you a textbook before summer, the summer work has been altered so that you will be able to complete this packet without a textbook. For the class we will be using a hard- cover book and an e-textbook that I will issue you in September. I expect that the work will be done over the summer and that you are prepared to hand in this summer work packet on the first day of class in September. This will obviously take some preparation on your part, but it is not meant to be overly difficult. You will essentially be completing the summer work to show that you have the capabilities to handle an Advanced Placement class. The main purpose of this assigned work is to give you a strong base for understanding some of the material we will cover during the school year.

Please be aware that AP Psychology is a college level class and it will be conducted as such. This means that students are required to take notes daily and to be prepared and professional every class period. You are also expected to do the assigned readings before class so that we may discuss the concepts in an intelligent manner. This will enhance the learning process for all. I am excited to see you all in class later this year.

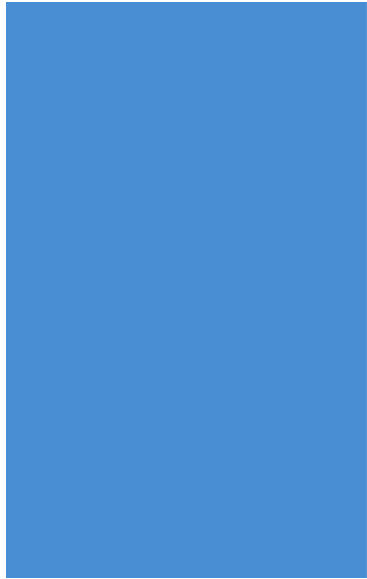

Assignments:

Use approved scientific journals to complete the attached handouts. Fill out a sheet for each of the psychologists from the list. Fill out a sheet for each of the six major Schools of Psychology as well. Reading the textbook is not required, but being familiar with some of the major themes and terms will be extremely helpful.

To truly understand a subject you must make it have meaning for you. We will strive to do that over the course of the coming year. Have fun learning about psychology and why it is one of the fastest growing fields of study in America.

If you have any questions as you work through this packet you can contact me at rodjensen@dvrhs.k12.nj.us over the summer. I look forward to a productive and challenging year on your way to achieving a 5 on your AP Exam in May 2024.

Mr. Jensen D106
