

Did you know...

In the U.S. e-cigarettes are the most popular tobacco product among youth

More than 2 million U.S. middle and high school students are current e-cigarette users

The nicotine in 1 JUUL pod is equivalent to a pack of cigarettes

December 10, 2018 **The New Generation of Tobacco Addiction**

Presented by Cristina Martins, CHES

This workshop provides information on the risk of youth and young adults using e-cigarettes or other vaping devices such as JUUL. Nicotine and other ingredients in the e-liquid will be analyzed, along with tobacco control efforts. Additional resources and tools will be offered to parents, teachers, and professionals to educate youth.

Join us at Kingwood Township School at 6:30pm. For more information, please contact shutka@kingwoodschool.org.
