

AP Econ essay

Over the course of AP Economics, we will be reviewing key concepts made popular by Adam Smith, known as the “father of economics.” Your assignment over the summer will be to write a biographical essay on Adam Smith, his ideas on economics and how they relate to today’s capitalistic economy of the United States. Comparative and contrastive ideas on Adam Smith’s outlook on capitalism and its relevance today should be included in the bulk of your essay. We will discuss his ideas when we return to school in August.
