

SHARE A SPOT

Should the situation arise where Senior parking spots become limited, the Delaware Valley administration has arranged for a “Share a Spot” program. Students who are in need of a spot, and one is not available, will have an opportunity to share a parking spot with a classmate. In order to do this, the student requesting to share the spot must do the following:

- Find a current senior who has a registered spot in the Del Val student lot;
- The current spot holder must agree to share their spot;
- Both students must arrive in the main office together to verify the agreement and to specifically note which two vehicles will be registered to the spot;
- In accordance with New Jersey State Law, students are permitted only ONE passenger in the car with them at a time. If this is violated, all of those caught in violation will lose their parking privileges;
- The sharing agreement is the responsibility of the students. It is NOT the school’s responsibility to determine how, or if a spot is shared equally.
