

Message from Mr. H:

Believe it or not, just over a year ago, we all got the message that schools were no longer a safe place due to the possible spread of this virus called Covid-19. In a very short time, parents/guardians, teachers, families and many community members rallied together to support our young learners. It has been a long year, but we continue to work together to ensure what is best for our FES students and your children. I continue to be proud of the collaboration that we all have as we head into the spring months. Thanks again for your continued communication and support!
