

Policy

FIELD TRIPS

The Frenchtown Board of Education recognizes that field trips, used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the school.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

The board of education shall consider field trips which are included in curriculum guides to have been approved in advance. All trips not listed in the curriculum guide must be individually approved by the board. Times and locations of field trips shall not be posted on any district web sites.

When field trips and excursions are to be arranged, the following guidelines apply:

- A. All trips, and the arrangements for them, must have advance approval. This includes whether district buses will be used; whether these may be supplemented by private vehicles; the route to be followed; and parking arrangements if necessary;
- B. Costs must be ascertained;
- C. Each child who goes on a field trip or excursion must have written parental permission;
- D. Student safety must be of prime concern, and adequate supervision must be provided by staff aided by other adult chaperones if necessary;
- E. All trips must be well planned, properly timed, and related to regular learning activities, or to district goals and objectives; and
- F. Each field trip should be evaluated by students, teachers, and the administration.

Parents/guardians may be asked to bear the expense of excursions. No student is to be denied the right to participate because of inability to pay.

The superintendent shall develop guidelines for planning trips suitable to the various grade levels, and regulations governing frequency, distance and expense.

The board does not endorse, support or assume liability in any way for any staff member of this district who takes students on trips not approved by the board. No staff member may solicit students of this district for such trips within the facilities or on the school grounds of this district without board permission.

Student Self-Administration of Medication

The board shall permit self-administration of medication on field trips for asthma or other potentially life-threatening illness by students as authorized by the student's physician and the parent/guardian. All conditions established by law and board policy shall be met (see policy 5141.215141.21 Administering Medication).

FIELD TRIPS (continued)

Epinephrine shall be administered via epi-pen to students in emergencies on field trips by the school nurse, his/her designee(s), the student's parent/guardian or the student himself/herself, in accordance with policy 5141.21 Administering Medication.

Good Disciplinary Standing

Students must be in disciplinary standing to attend field trips. A student is not eligible to participate while serving a detention or suspension. Students who serve multiple detentions, suspensions or a combination of the two may be found not eligible to participate.

When a student is restricted from attending a field trip alternate educational arrangements will be provided for the student.

Good Academic Standing

Students who are not in good academic standing may be restricted from attending field trips at the discretion of the classroom teacher. When a student is restricted from attending a field trip alternate educational arrangements will be provided for the student.

Good academic standing at the beginning of the school year for all grades, six through eight, means successful completion of the previous year's requirements, with no failures.

Continuing good academic standing requires maintenance of passing grades in all subjects during the current year.

A student who begins the year not in good academic standing, who maintains a passing grade in every subject and a minimum grade point average of 75, may request consideration to participate in field trips.
